Subject: Stormwater Pollution Prevention Program – Amendment to the Annual Deliverables for FY 2010-11 – Section C.5.e.iii

Dear Mr. Wolfe:

As requested by Selina Louie of the SF Bay Regional Water Quality Control Board (RWQCB), below is clarification of Section C.5.e.iii. I made an error completing section C.5.e.iii of the annual report. The information requested by the above section was and continues to be collected, just not with Form C.5.e. The Description for Section C.5.e.iii should have read as follows:

Description:

- **The collection system screening program identifies illicit discharges through complaint investigation, routine catch basin inlet cleaning, lagoon monitoring, and inspection of storm pump station.**
- **Prior to any pumping from the City's only discharge point to the bay, the forebay is inspected for any sheen on the water surface and any floatable trash is removed at the bar screens.**
- **No signs of illicit discharge were found during screenings.**
- **Staff has solicited several options to provide a device that will provide for 100% trash capture for all water discharged into the Bay. Based on comment from the RWQCB, the device will be installed within the next 18 months.**
- **Staff will be utilizing the San Mateo Countywide Storm System Screening Form – C.5.e in FY 2011-2012.**

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Sincerely,

Norman Dorais, P.E.
Public Works Maintenance Manager
